

# Building strong bonds

Contichim International and  
Quaron Belgium become  
STOCKMEIER Chemicals Belux

STOCKMEIER Chemicals Belux  
The new chemicals distributor

STOCKMEIER  
CHEMICALS  
BELUX

## Contichim International and Quaron Belgium join to become STOCKMEIER Chemicals Belux

Backdated to January 2014 the STOCKMEIER Group acquired 100% of the shares of Quaron Belgium.

Starting with January 2015 Contichim International and Quaron Belgium join to STOCKMEIER Chemicals Belux, headquartered in Limal-Wavre.

With this union a combination of the best features from two strong chemical distributors in Belgium will take place.

The two companies complement each other perfectly so that our customers will benefit from:

- an extended product range
- optimized processes
- high degree of reliability
- access to the extensive product range of the STOCKMEIER Group.

Your established contact persons with their

- long experience know-how will remain available for you at any time.

The Haubourdin warehouse, close to the Belgian border, is the perfect location for distribution business of small bulk and packed products to our customers.

With its 5 ha premises, tank farm for both Organic and Inorganic products, warehouses for technical and food products, a fully equipped laboratory and a recent white room, STOCKMEIER Chemicals Belux has all the tools, needed to be a top distributor.

STOCKMEIER Chemicals Belux

- a strong bond, no matter what.

Scope of business of the new entity will remain the import, export and distribution of various industrial chemicals. The major purpose is to meet the industrial specific needs of our customers, which requires

- the experience and flexibility in handling huge quantities of bulk chemicals.

Acting as an industrial agent and an importer from various suppliers, STOCKMEIER Chemicals Belux has the capabilities to execute bulk, drums, small and large bag deliveries to a number of European, African and Middle East countries. This also by using terminal facilities in different European seaports, such as Ghent and Rotterdam.

And when faced with challenging tasks, you can also rely on us. We will do everything we can

- to come up with a tailor-made solution as quickly as possible.

The professional knowledge and understanding of the industrial needs of both our customers and our suppliers are the keystones of our activity. Our comprehensive reliability leads to mutual trust. And that's something we have been working on all over the years.

Our activities are – and always formerly have been – designed with

- lasting, long-term business relationships in mind.

When it comes to quality assurance, our high standards also go back a long way – and will stay transparent and easy for our customers to understand.

Within the STOCKMEIER Group STOCKMEIER Chemicals Belux is committed to a constant quality program. A major component of our company-specific quality management is

- the application of SAP R/3 to all of our business processes.

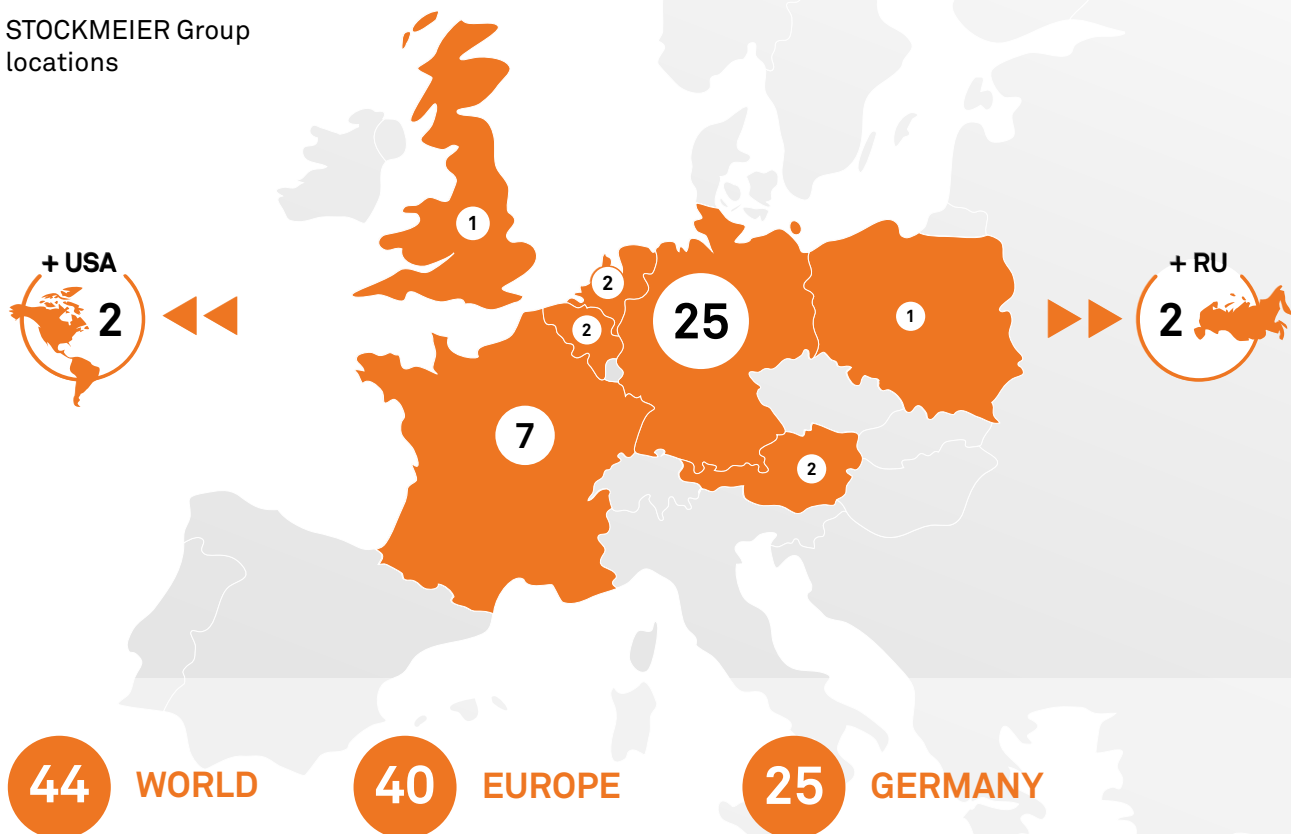

Our procedures are designed

- to assure product quality, from the production facilities until it reaches our final customer.

With regard to the handling of your logistics concerns the whole Group has a great deal of expertise, either for international road, rail, river, as well as for ocean vessel transport.

- This makes our bond a strong bond for you.
